If your read the 1/3 page Metropolitan View signed piece by Allan Katz, S-I 1/12, before sendi g, you can see one of the reasons I've said that you need a special scorecard to undersatnd N.O...I also found ~~ixtx~~ it interesting that he reports the unreported, the lack of legal authority for the use of the military helicopter and of the deputies from the two touching parishes, who just rushed in without authorization asked or goven. The spirit of vigilantism he likes. Be interesting to see if either figures in any of the possible litigation. HW 1/20/73
